

23<sup>rd</sup> August 2022

Greetings, Family and Friends

The good news is that the past 20 days have been low key on the Covid front with only 1 resident in The Lodge with Covid from 13<sup>th</sup> Aug to 20<sup>th</sup> who was able to isolate without impacting other residents. Unfortunately, as one came out of Isolation on 20<sup>th</sup> another resident tested positive and again has been supported in room isolation. As of today we now have a second resident who has tested positive on a RAT in Jacaranda thus we are officially in an outbreak. I can report that all residents in Jacaranda have now had a PCR test to ensure we are managing the spread of infection in an optimal manner. **Whilst we await results it is necessary to place some restriction on movement of Jacaranda residents.**

- Jacaranda Residents will not be able to attend external excursions other than medical appointments.
- Visiting will continue in the resident's room maintaining mask wearing, hand hygiene and social distancing
- Movement across the facility to mingle with residents from other areas is not appropriate as it places other residents at risk.
- All Jacaranda residents can move freely about their suburb and outdoors remembering to ask for assistance if needed. Remember don't meet up with residents from other areas while outside.
- Activity and exercise programs will continue in the confines of the suburb so that no one misses out on their favourite programs.
- The 2 residents with Covid can get some exercise and sunshine outside with staff assistance to ensure isolation from other residents is maintained.
- Covid positive residents may have limited visitors, however families must assess their personal risk and be prepared to wear full PPE for a max of 30 min visits.
- The family Liaison Team continues to follow up daily with a designated family member each day for an update. However, if there is a deterioration in the residents condition the Reg Nurse will contact family directly as a change occurs.

**For the Manor and Bluegum, we have the following requirements:**

- 1) Visitors will be required to wear a Surgical Mask always covering the mouth and Nose. This means NO eating or drinking during your visit.
- 2) Two Vaccinated adults may visit with a child 2 years and under within the resident's room between 10am and 4:30pm on weekdays. No appointment necessary. There are no weekend visits at this time however we will assess again once we are seeing the local Covid cases significantly decrease.
- 3) The entry screening requirements are evidence of a Negative RAT and check in using Coolguard in the Manor reception. If you have recently had Covid please bring your medical evidence for RAT exemption. If you are showing any signs or symptoms, please do not visit Maroba until you are well.

4) Outside visiting for up to 2 Vaccinated adults and 3 children. Children aged 12 and over must have received 2 Covid vaccinations. A surgical Mask must be worn throughout the visit and all attending including children, must be checked in using Coolguard in the Manor reception. Appointments required for all outside visits. Ph. 49350300

5) The requirement for evidence of a Negative RAT continues if you are taking a resident out. It is highly recommended that other family attending a gathering with a Maroba resident to also undertake a RAT. A record of who attends such a gathering should be kept by the host in the event of a positive case emerging. If you have a negative RAT test but still don't feel 100%, please delay your visit or outing

6) Register your intention to leave the facility using the online Excursion form at least 48 (business hours) before the outing. All residents not in Jacaranda, can leave the facility. whilst following Covid safe measures and remember the person completing the form is fully responsible for the safety of the resident whilst away from the facility.

7) Remember you must observe the green tick on Coolguard before proceeding. Check with a staff member if you have any issues with the Coolguard check-in. Also, double check that the correct name has come up to ensure a valid check in so that if contact tracing is required, we are on the front foot not running behind.

8) If you have been overseas and would like to visit I **recommend** (Not a Health order) you wait a couple days to ensure you haven't inadvertently been infected in transit, then ensure you undertake the testing requirements etc expected of all other visitors.

Be assured we are continuing with twice weekly RAT testing on all consenting residents and additional testing for any resident exhibiting symptoms or sudden deterioration. Staff also continue with RAT testing before the commencement of every shift, which is identifying new cases before entering the building. At present we have 2 positive staff members this week as all other staff have recovered. The 2 new staff cases have not been at work during their infectious period. We are pleased with our rostering capabilities to date, as the team are doing a mighty job to fill any vacant shifts that arise.

Family members who would normally provide care for their loved one or those supporting a palliating resident continue their caring and support roles throughout the facility and we welcome their efforts.

I know you will all be wondering about **Father's Day**, so I am pleased to report that if local numbers continue to go down, we will welcome 2 visitors for inside visits by appointment only for Male residents between 10am and 3pm on Sunday 4<sup>th</sup> Sept. If you would like to have other family members join you then please book an outside visit and ensure all participants maintain mask wearing, hand hygiene and social distance as much as possible. Check in requirements will be expected as per weekday arrangements.

If you have concerns with our approach you are invited to call us to discuss or if you prefer you can contact:

- Older Persons Advocacy Network (OPAN) on 1800 700 600
- The Aged Care Quality and Safety Commission on 1800 951 822
- Senior Rights Service 1800 424 079

Although this current wave is clearly diminishing locally and nationally, we do ask you to remain vigilant with your hand hygiene, social distancing and please avoid coming to Maroba if you have any symptoms.

We appreciate your support and assistance in keeping the Maroba Community safe and well. If you require additional information, please call reception 49350300 during office hours or email [enquiries@maroba.com.au](mailto:enquiries@maroba.com.au).

Start planning your spring wardrobe and keep well.

Yours sincerely,

Viv Allanson - CEO
